The Division of Remediation believes it is necessary to add the former Custom Cleaners site, located at 3517 Southern Avenue in Memphis, Shelby County, Tennessee. This site is approximately 0.36 acres in size. There are several commercial properties in the site vicinity and residential properties are located approximately 350 – 400 feet of the site. Until the mid-1990s, the site has been used approximately 50 years by laundries or dry cleaning facilities. The building is currently vacant.

Custom Cleaners operated at the site from 1985 to 1995 and used tetrachloroethylene in its dry cleaning business. In addition to using tetrachloroethylene to clean clothing, Custom Cleaners generated spent tetrachloroethylene and spent dry cleaning filters. Some of these hazardous wastes were abandoned at the site when the owners of

Custom Cleaners closed the business. Tetrachloroethylene and its daughter products have been detected at elevated concentrations in site media (i.e., soil, soil gas, indoor air, and/or groundwater) during sampling events in September/October 2013 and March 2015 respectively.

Since the facility that generated the release is no longer active, tetrachloroethylene is present on the site and tetrachloroethylene poses or may reasonably pose a threat to health and the environment, the Division of Remediation proposes to amend Rule 0400-15-01-.13 List of Inactive Hazardous Substance Sites by adding the Former Custom Cleaners site to its list of sites.

Oral or written comments are invited at the hearing. In addition, written comments may be submitted to Tim Stewart at the Division of Remediation, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 14th Floor, Nashville, Tennessee 37243, prior to or following the public hearing. However, the Division must receive comments in its Central Office by 4:30 p.m. (CST), May 13, 2016, in order to assure consideration.

Copies of draft amendment are available for review in the Public Access Area of the:
